### Coal Mining Company [LIMITED.]

Capital, - - - £30,000, IN 15,000 SHARES OF £2 EACH.

Incorporated under the British Columbia Joint Stock Companies' Act. 1859 which specially limits each Shareholder's liability to the amount of his shares.

THOMAS TROUNCE, Esq., Chairman Jas. Dickson, Esq. M. D. Wm. P. Sayward, Esq., C. Houndow, Esq., J. B. Timmermann, Esq. C. Vereydhen, Esq.

WM. P. SAYWARD-TREASURER.
J. S. WILLIS-SECRETARY. BANKERS-BANK OF BRITISH NORTH AMERICA TEMPORARY OFFICES-Columbia street, New West-MINING SUPERINTENDENT—GEO. ROBINSON, Esq.

This Company has been formed for the purpose of developing and working several extensive and valuable seams of Anthracite Coal lately discovered in Queen Charlotte Island.

At present this is the only mine of pure Antracite Coal known to exist on the Pacific Coast, and from the large and increasing quantity required and shipped to San Frare Sec and other ports the discovery is one of great importance and value.

value.

The Company have had reserved to them be the Government Twenty Thousand Acres formining purposes, five thousand of which is secured (at present) by lease at the nominal rent of \$100 per annum, with the additional privilege or putchasing 1000 acres at \$1 per acre for a town.

The ccal seams, from three to seven feet in thickness, are situated on the South of Graham Island, Queen Charlotte group, about 2009 yards from the shores of a fine Bay and about 400 feet above the level of the sea, the construction of an easy and inexpensive tramway shows the construction of an length terms. length, together with a wharf of about 150 feet projection are all the works the Company will require to enable them to offer coal in the mar-

require to enable them.

The quality of the coal has been fairly tested.

The quality of several of the steamers have The quality of the soan are the steamers have pronounced it to be of the very best quality; it has also been used by the proprietors of the foundries in the city of Victoria whose reports are an nexed, and declared by them to be equal if not superior to the best Pennsylvania Anthracite

nexed, and ucena best Pennsylvania Authracate Superior to the best Pennsylvania Authracate Coal

The great advantage of the position of the mine cannot be brought too prominently to the notice of intending Shareholders, its close proximity to the coast, together with its superior quality renders it of great value; also an easy access for vessels of any tonnage, a safe and commodious harbor perfectly sheltered and land locked with secure and good anchorage, will enable vessels at all seasons and weather to load at the Company's wharf.

all seasons and weather to load at the company swharf.

There is a large demand for anthracite coal to supply foundries, steamers, &c., &c., in San Francisco, Portland, Victoria and other ports, all of which has to be shipped from the Eastern State or from Europe at a great expense, the selling price ranging according to quality from \$16 to \$25 in some markets in others higher; the trade to Panama and along the Pacific coast will be considerable. An extensive trade will also be 99en with China and Japan. The may also along the China and States of America, France and Russia, must necessarily consume a large quantity.

DEBTOR AND CREDITOR.

It would seem that, after all, we are to hav imprisonment for debt abolished. The Attorney General's bill passed its second read ing in the Council yesterday. That bill is similar to the one in British Columbia, and is denounced by the Chief Justice as ambiguous, crude and unintelligible. It is not likely, therefore, it will pass in its present shape. The honorable mover will scarcely persuade the Lower House, however effectually he may the Upper, that because British Columbia has a bad bill we of Vancouver Island, in view of union, should have a bad bill too. Mr. Dennes' measure is much more acceptable. It is more liberal and better adapted to the wants of the country. The member for Salt Spring does not admit of any claim against the body for money due. If the debtor does not pay, his chattels or as sets may be seized, but he himself cannot be interfered with. This brings the matter down to the principle maintained by political economists-that the debtor as a debtor cannot be a criminal, or, at least, punishable by incarceration. If he attempts a fraud he is in the same position as any other person who comes under the force of the criminal law. If a man obtains money under false pretences it is not because he is due his victim a cer tain sum that he is imprisoned, but because he has practised a fraud. This then is, or at least should be, the foundation of any law that regulates the relations of debtor and

Mr. Dennes proposes to abolish two things that have worked no end of mischief in the colony of Vancouver Island :- the capias ad respondendum-a writ issuing to take the defendant for the purpose of making him answerable to the plaintiff,—and the capias ad satisfaciendum-a writ of execution after judgment, empowering the officer to take and detain the body of the defendant, until satisfaction be made to the plaintiff. These two writs have done more, we firmly believe, to depopulate the colony than any other thing that can be thought of. The very dread of incarceration has made hundreds, who were in temporary difficulties, fly the country. This the Speaker of the House does not seem to believe, or if he admits the statement at all, qualifies it by what we conceive to be the gratuitous assertion that these people were but little profit to the colony when in it. Now of all men it is well known the enterprising are most liable to reverses. The sluggish or ignorant man, like the person with the single talent, keeps his dollars, as it were, hid in the ground, and for all the benefits which he confers on the country might as well be a chimpanzee. And yet this is the sort of population that some members of both Houses of Legislature are striving to encourage to the exclusion of all others. This is the sort of men who seem in Dr. Helmcken's eyes to be profitable be cause they don't get into debt: and because

they don't have to run away.

In yesterday's debate in the Legislative Council we see some of the erroneous theories of the Speaker adduced by his brother presiding officer of the Upper House. The Chief Justice opposes the abolition of im-prisonment for debt on the ground that it is not required-that the present system works well. Like Dr. Helmcken, he tells us that there are very few people imprisoned, and that the evils of the law are greatly exaggerated. Unfortunately, like the Speaker of the Merchant Tailor, Yates street, wishes House, the Chief Justice overlooks the b no means insignificant fact that people i ave always take the choice of two evils, and, i preference to involuntary confinement up before the Chief Justice in his two months' experience is about as relevant present system, as the few convictions in the Cash. law courts of Idaho are of the rarity of crime in that exemplary territory. If the learned gentleman had shown that there were few people who ran away because they could not pay their debts, and few people deterred from enterprises because of the personal Buy me a Musical Box, danger of failure, he would have made out something like a case; but as he could not do this his opposition was fruitless. We be-lieve Chief Justice Needham to be a valuable acquisition to the colony; we admire him on the bench, and have the sincerest respect for his decision as a judge, and his opinion as a lawyer; but he will allow us to state with all due deference, that he has something yet to learn in colonial political economy When he shall have resided in Vancouver Island another twelvementh we feel bound to D. KAVANAGH & CO. say he will talk differently. He will see that apart from the injustice of imprisoning a man because he is unfortunate enough to be unable to meet his liabilities, it is impolitic; that it damages the country in the eyes of the people of the neighboring Republic, the only source from which we are likely to obtain, for some time at least, an increase to our population and our wealth. The fact is Vancouver Island has been made through her barbarous and antediluvian laws a veritable scare-erow on the Pacific. It is needless to say she cannot afford to occupy this BRIDGE WHARF,
December 1st, 1865. rather unprofitable position. She cannot, in fact, afford to be behind her more progressive neighbors. The Chief Justice will see all this by and byc. He will see besides that the law, as it at present stands, catches only the honest man and allows the dishonest one

HE BRITISH COLONIST swindler keeps his counsel, goes quietly on board the steamer at the last moment, and before the writ can be obtained is far beyond the reach of the sheriff or bailiff; while the honest man speaks carclessly of his intention of leaving, and enables the creditor without fliculty to make out the necessary affidavits and obtain the writ. The whole law is inleed from beginning to end a great blunder and a gross injustice, and the sconer it is blotted from existence the better for all conaned-for the creditor as well as the debtor.

THE LATE GALES AT COWIGHAN,-The wholly impassable by the numerous trees thrown across it by the late gales. Nearly three miles of the northern end of the trail is inundated through the overflowing of the big lake, consequent on the dam constructed for Sayward's mill. In one place the water, where a tree had fallen, was nine feet deep at the end of last week, and could not be forded. Both the Maple Bay and Somenos trails are also blocked, but the settlers would forded. Both the Mayle Bay and Somenos trails are also blocked, but the settlers would turn out and soon have them cleared. Our informant had a narrow escape on Friday evening last during the snow storm. The gale had been raging violently, but as he was passing in the neighborhood of Elk Horn bridge a sudden whiriwind snaphed taree or four large pine trees as if they had been lucifer matches and one of them came down with a tremendous crash two or three yards in front of his horse's head. At Somenos an area of some twelve acres was visited by a whirlwind which levelled every tree that stood upon it. It is a singular and fortunate coincidence that notwithstanding the quantity of stock running at large not a single fatal accident of any kind is recorded.

## THE BRITISH COLONIST BIG BEND DIGGINGS

GREAT RICHNESS CONFIRMED

### LATEST PARTICULARS.

The steamer Enterprise arrived last even ing from New Westminster, with 73 passen gers and an express.

There is nothing of interest from Cariboo, while the most gratifying accounts continue to be received from the Big Bend,

From Mr. Cason (a very intelligent Frenchman), who arrived in this city last evening from the Big Bend diggings, we gather the following reliable information. Mr. Cason left French Creek on the 19th ult. The weather was fine, though rather snowy. All kinds of work were suspended for the season FRENCH CREEK.

Five or six individuals were to winter or French Creek. Two men were busy making preparations to put up a saw-mill for Mr Romano. The creek has been staked off for a distance of three miles in length. Out of the numerous companies that prospected on the creek this season, only five were able to reach the bed-rock, viz: The Discovery Claim, in which a pan of dirt yielded \$5 or \$6; little work had been done here during the past season. Francois Grivel, who worked alone on the side of the bank, had been making as high as \$500 in one day with a rocker. Dunits & Co. adjusting with a rocker. Dupuis & Co., adjoining Grivel's upper boundary line, had been making some big pay during the latter part of the season. Laffeur & Co., three men in all, n the bed of the creek, had been averaging from 10 to 16 ounces per diem. Lafteur took down \$6,000 as his own share of the profits. The Munroe Co., four men in num-

profits. The Munroe Co., four men in number, are reported to have taken \$1,500 to the interest, free from expenses.

The Brabant Co. consisting of four men who have not yet reached the bed rock, have been averaging from one to one and a half onnees to the hand per day. The Bachelor's Co. have struck an excellent prospect in the top ground. Mr. Cason, one of the shareholders in this claim, brought down \$4 25 of coarse, flat heavy gold, which he washed

McCULLOUGH CREEK Clement's Co. on the Discovery claim, co sisting of four or five men, were reported to make from 20 to 40 ounces at the depth of seven or eight feet a day, although the bed rock had not been struck. They found nug-gets weighing from \$15 to \$20 a piece. This gets weighing from \$15 to \$20 a piece. This is the only company who got any gold this season, but hopes are entertained of the richness of this creek. It must be borne in mind that this creek was not discovered until very recently. McCullough's Company were however making the necessary preparations to work all the winter.

### CARNES' CREEK.

Several companies were at work when our formant left. The Discovery Co. above all are doing very well.

are doing very well.

The following statement of the distances to Big Bend and topography of the diggings which we have taken the trouble to compile, will at the present time be read no doubt with much interest:—

From Yale to Lytton Oity, 57 miles; from Lytton to Savana's Ferry, by taking the five pack trail along Thompson river the distance is fifteen miles shorter. From Savana's Ferry to the end of Shuswan Lake—lake and river travel alternately—is 130 miles. From river travel alternately—is 130 miles. From the end of Shuswap Lake to Kirby's Place Debating Class.—The adjourned debate from Thursday evening, on the subject of Capital Punishment, will be resumed this evening at 8 o'clock; Mr. Hutchinson leading off in the negative. Mr. Gillard will reply on the whole, reviewing the arguments adduced.

Big Bend Excitement.—Mr. G. B. Wright and other passengers by the Enterprise inform us that the continued good news from Big Bend is turning the attention of on the Columbia river, 38 miles, over six miles; from Dead Rapids to the mouth of Gold Creek, which in thus ascending empties into the Columbia river on a the right romation on this bands.

Two miles above the mouth of Gold Creek is which is distant from Wilson's Landing; from this place there is a portage to navigable waters on Gold Creek, of four miles, for four miles, for four miles, for many miles, and the more of the money o

downwards, chiefly taken from French Creek.
Mr. Romano has the most unbounded confidence in the Big Bend country, not only as a mining district, but as an inviting field for the trader, and it is his intention, should the work of placing a steamer upon lakes Kamloops and Shuswap not be gone on with at onco, to construct, a horse-boat for the accommodation of his own business.

Amongst the passengers by the Conward on Monday were Mr. Low, formerly foreman of the Baldhead Co., Williams Creek, a Frenchman from French Creek, and Mr. John Carraher, from McCulloch's Creek.

McCulloch's Creek a distance of ten miles, McCulloch's Creek a distance of ten miles, where he found the Clemen's Company at work, taking out from \$16 to \$25 s per day to the hand. This company consists of 8 men, viz., John Clemens, John Gallaher, John Hough, James Cunningham, Dick Gilbert, "Brother Dick," and Thomas—i Mr. Carraher and party set to work to prospect. They found as high as \$6 to the pan, located their claims, and by that time the season was too far advanced and supplies too scanty to justify their remaining.

HOUSE OF ASSEMBLY

WEDNESDAY, Dec. 6, 1865. House met at 1:15 p.m. Members present:—The Speaker, Messis. DeCosmos, Powell, Dickson, McClure, Duncan, Dennes, Tolmie, Carswell, Trimble, Cochrane and Ash

BANK ACT. Mr. Duncan, in pursuance of notice, asked leave to introduce a bill to amend the Bank Act. He observed that although monetary enactments rarely came under the consider-ation of the House, still circumstances occaation of the House, still circumstances occasionally arose in the colony which rendered it necessary for honorable members carefully to watch such financial matters. The present bill in force in this colony was framed somewhat lossely and needed amendment. He proposed to alter more especially the second clause. It was competent for the Executive to investigate the amount of notes in circulation, but such power only applied to the chief office in Victoria, as regards the issue of the netes, and did not extend to the various branches of the establishments, where a ous branches of the establishments, where a ous oranness of the establishments, where a certain number of notes were usually issued for the rul poses of business. Hence this re-striction tends to invalidate the spirit and intention of such Act. The issue of notes should not exceed the amount of paid up

capital.

Leave was granted to refer the same to a

UNION AND CROWN LANDS DESPATCHES Mr. McClure moved, in conformity with revious notice, that the Governor be respectally requested to lay before the House fally requested to lay before the House copies of all public despatches forwarded to the Right Honorable Edward Cardwell in reference to the Crown Lands resolutions of June, 1864, and the Union resolutions of January last. He did so in order that no injustice might be done the Governor in being suspected wrongfully. It had been suggested that the House in such matters should follow the example of the Imperial Government; but hon members must see there was no the exemple of the imperial Government; but hon members must see there was no analogy in the case. The Executive Gov-ernment of England represented the majority of the people; here the Executive were ap-pointees of the Crown. Besides in England pointees of the Crown. Besides in England there were necessarily in her relation with other powers State secrets and a State policy; here there was nothing, or at least should be nothing of the sort. If there was anything which Vancouver Island had reason to regret in the past it was the secret policy of the Execuive in its relations with the Home Government. It was therefore desirable we should have everything open as the debates in the Assembly itself. There was but one interest, he took it, in the country, and that one was the public interest. The Crown could have no other—it could have no aninterest, he took it, in the country, and that one was the public interest. The Crown could have no other—it could have no antagonisn to the public good. The idea of secreey and pretentions to old country diplomacy inthe Government of a small community like our own was simply ridiculous. Outsidethis part of the question he could see instance—he did not believe they existed—but he could see where extracts from certain despataces might altogether mislead the House.

House, Mr. DeCosmos thoroughly concurred in the moion of his hon, colleague. If the House of Commons in England decided that articuar extracts would suffice for their The cat of Vancauri Island, as was shown, was enirely different.

The steamer Onward, Capt. Irving, arrived from Yale on Monday night, with about 60 passengers. Mr. Romano, of Yale, arrived from He Big Bend on Sunday, having made the trip in five days! a Frenchman from French Creek, and Mr. Low left Cariboo about two months ago, and went to French Creek, where he took out \$3000 in less than five weeks. The last named gentleman went over to Kootenay last May, and was induced, from reports coming down, to direct his course towards the Big Bend country. Owing to delays from various causes, and the time occupied in building a boat and organising a party at Colville, he did not get off till October. season. Mr. Carraher showed us a sample of the gold from McCulloch's Creek. It is in nuggets ranging from \$10 downward. Messrs. McCulloch and Orr had arrived on the creek before he left, and were making preparations for the winter. They had found excellent prospects on another creek running inta Gold Creek lower down, and taking its rise in the same range of mountains as McCulloch's Creek. Very little snow had fallen in the Big Bend country, although the snow was four feet deep on the summit in crossing over to Shuswap Lake. These parties all unite in predicting that the Big Bend country will afford far more extensive and remunerative diggings than Cariboo.

However disposed his Excellency might be to communicate information, he was sometimes precluded from doing so from the tenor of the instructions laid down for his guidance. There were colonial regulations with reference to the publication of portions of unanswered dispatches, which it was not to be expected that the Governor would presume to dispatches, which it was not to be supposed that the better course to pursue would be to assume that some misunderstanding had occurred causing this request to be overlooked. He summit in crossing over to Shuswap Lake. These parties all unite in predicting that the Big Bend country will afford far more extensive and remunerative diggings than Cariboo.

HOMESTAD BILL.

The committee then preceded to take upseriation the clauses of this bill. Clause I., determining the amount at \$500\$, created a lively debate.

Dr. Tolmie wished to know whether that sum was set aside in Washington Territory.

Mr. DeCosmos said that it was so, as well as in Oregon and California, and that in consequence of our proximity to those States he had fixed It at that amount.

Dr. Tolmie considered the sum excessive. When a man could not pry his debts he ought to be a poor man and sink in the social scale. He wished to see the amount reduced to \$2500. That would be ample to enable an unfortunate man to start again in business. It must be borne in mind that the Homestead Law has been grassly abunal in other registration, we would virtually disfranchise Nanaimo for the registration of Nanaimo.

Dr. Powell moved that a writ be forthewith issued for an election of a representation of Mr. C. A. Bayley.

Wh. McUnre thought it would be better to postpone the issuing of a writ for a little time, as the mail communication was so uncidate.

Mr. DeCosmos supported the postpone-ponement. He went even so far as to state that a number of influential men in Nasiam of indicate.

Mr. DeCosmos supported the postpone-ponement. He went even so far as to state that a number of influential men in Nasian and the reduced to \$2500. That would be ample to enable and the reduced to \$2500. The beautiful that the Homestead Law has been grassly abunal in other reduced the start and the reduced to \$2500. The beautiful the postpone ment would virtually disfranchise Nanaimo for the section of the re aw has been grossly abused in other coun-ies. Mr. McClure replied that so far from in-

tries.

Mr. DoCosmos repeated his argument in favor of the original sum. He was anxious to ask honorable gentlemen whether it was not wise to legislate to attract population, to legislate to retain our immigrants, to legislate.

Mr. McGure replied that so har from methoding to disfranchise them, it was in reality to afford the electors an opportunity of choosing a fit and proper candidate for their suffrages.

The House divided on the motion, and the Mr. DeCosmos repeated his argument in not wise to legislate to attract population, to legislate to retain our immigrants, to legislate to hold out suitable inducements to single men to marry and reside permanently here. People came here from long distances to improve their condition, and we ought to be in a position to compete with adjacent territories. In the American States on the Pacific Coast there is just as much security for life and there is just as much security for life and property as elsewhere, with the exception of some of the back States recently settled up. some of the back States recently settled up. It was important that we should tempt British subjects to remain in this colony. As regarded the abuse of such an enactment in other places, all laws were abused; even the most sacred of all institutions, matrimeny, was abused, and would be so as long as man was man and woman was woman. In a new country, where things do not move in a settled grove, it was incumbent upon us to encourage men of enterprise. A smaller amount would not retain this class of persons so essential to our prosperity. What sort of a place could be purchased for \$2500! why it was scarcely worth talking about. Respecting the apprehension of fraud, debts already contracted would not be included in the provisions, but, at the expiration of a already contracted would not be included in the provisions, but, at the expiration of a specific time—say three months—it would be understood that creditors could not levy upon the homestead for debts incurred at a subsequent date. Would not a tradesman prefer trusting a man possessed of a \$5000 homestead, which is exempt and protected by law than a dishonest and unsettled customer. If the sum in question was to be cut down, he hoped that some sound, substantial reason would be given for the alteration, and not mere clap-trap assertions. mere clap-trap assertions.

Dr. Tolmie—As I have before stated, the

Dr. Tolmie—As I have before stated, the right principle is that a poor man must sink in the social scale—it is a fallacy to prop him up, and thus bolster up undue speculation—If they are really enterprising and industrious men they will soon surmount their difficulties.

Dr. Ash did not altogether approve of a principle which admitted and their altogether approve of a settling property upon himself, and then afford him an opportunity for gambling it swaw. It him an opportunity for gambling it away. It was perhaps desirable that a man should settle any amount that he thought proper upon his wife when he was perfectly selvent. However, there was a similar bill before the other House, and it would be expecient to a wait to the result of their labors. He would therefore suggest that no action be taken until they had the draft of that bill before them.

Mr. Cochrane thought that distinct bills brought forward on the same subject simultaneously in each House was the worst form of legislation. It would greatly facilitate business to defer considering this question for the present.

Dr. Timble—Perhaps it would be the formulation of the present.

Dr. Dickson did not think so.

IMPRISONMENT FOR DEBT.

carried out, to steer clear of embarassment of debt. It was not in one case out of fifty that misfortune did not arise from circum

stances over which there was no control. The stances over which there was no control, the bill left untouched the just punishment of anything like dishonorable conduct, but would not visit with imprisonment the non-

ment. Before the Act of Victoria a creditor could throw a debtor into gaol; the consequence was the gaols were full. It was a crying evil and the bill was abolished. One case only being reserved that of arrest for intendal flight to put creditors at defiance. The judge had power to hold to bail and such was the law at present in force in this calie.

was the law at present in force in this colo-ny. The learned judge then described the three kinds of writs authorised against the

three kinds of writs authorised against the effects, the property, or the person of the debtor and their legal effect and operation; also the recourse to bankruptey, concluding by remarking that if confidence was reposed in the person administering the law he could not conceive any better system than that which at present prevailed. He denounced the British Columbian Bill of which this was said to be a copy, as wild mits character, unintelligible, with scarcely any merit, ambiguous in language, and crude. The President apologised if he had spoken warmly or said anything offensive, which was

WEDNESDAY, Dec. 6.

BANKRUPTCY COURT. BEFORE CHIEF JUSTICE NEEDHAM

Dr. Dickson said that he had been informed upon good authority that the preparation of this return would cost some thousands of dollars, and he thought it would be better to ask for certain papers, and then members could examine the items for themselves.

After a few remarks from Mr. Duncan the matter dropped.

REPRESENT. so disposed of, and the Judge moding no minutes of a decision having been pronounced by his predecessor, agreed by consent of the parties to take the case as a summary suit on Monday next. The sum in dispute is about \$700.

is about \$700.

Schas. Levy was summoned in the same estate as holding the power of attorney of B. S. Levy, to produce title deeds relating te property alleged to be worth \$2000. The deed was produced dated the day before the bankrupt absconded for \$1500 sold to have been paid by Levy to Culverwell for the property. From Mr. C. Levy's statement it appeared that no money passed on that occa-sion, but that the property was transferred for a bill of \$1500 previously due.

Mr. Bishop impeached the transaction on the ground that Culverwell was insolvent at

the ground that Culverwell was insolvent at the time and that it was a voluntary preference. The matter was ordered to stand adjourned till Wednesday next.

\*\*Re Muller's Estate—In this case the Judge decided that although the language of the Act was somewhat ambiguous on the whole, that the words "personal chattels" applied more particularly to moveables, and therefore Mr. Culverwell's bill of salu would stand good for the leasehold, but that the personal chattels amounting to \$148, must go to the trade assignees, which sum was paid into court.

trade assignees, which sum was paid into court.

Mr. Courtney for Carswell.

Mr. Bishop for the Trade Assignees.

Re Duncan's George's Assignment—Mr. Shepherd on behalf of the Bank of British North America afforded some explanations in this estate in regard to property called "The Willows." Mr. Duncan who was called and examined by Mr. Bishop, proved that the property and others belonging to the late firm would be available for the estate of Culverwell, and the Judge directed that it be at once got in.

Macdonald's Estate—Further disclosures took place herein from which it transpired

baccondats State-Puriner discostres took place herein from which it transpired that it was likely some considerable property mortgaged by Cocker could be got in. The Judge ordered the Solicitors to the estate, Messis. Drake & Jackson and Bishop to proceed to realize it.

IMPRISONMENT FOR DEBT.

The Hon. Attorney General moved the second reading of the bill for amending the law of arrest and imprisonment for debt. It was not necessary he said to enter into the details of the bill, but only to discuss its principle, which was not the abolition of the law of arrest but of imprisonment for satisfaction, except in cases suggestive of something like misconduct. He alluded to the mischievous effects arising out of the humiliation, delay and incoavenience of the present law. It was impossible in a country so unsettled as this, where credit was so generally carried out, to steer clear of embarassment or Messis. Drake & Jackson and Bishop to proceed to realize it.

Re Estate of Thomas Mann—The Bankrupt came up for his first examination. Mr.
McKay was summoned to account for certain monies in his hands belonging to Mann.
Mr. Copland for the bankrupt.

Mr. Bishop for Mr. McKay.

On examination it appeared that Mr. McKay held certain monies belonging to the
firm of Munre & Mann; that he had a claim
or lien thereon for a security which he had
given for their benefit. Mr. Bishop contended that Mr. McKay was not bound to give
up the money until he had been released;
and further that the monies were the joint
property of Munro & Mann, and were not
available for Mann's private estate.

The Judge held that Mr. McKay had a
claim so as to protect himself, but directed
that if his security was released at the security was released.

laim so as to protect himself, but directed hat if his security was released at the end of a fortnight the monies in his hands were to be paid into court to abide further order

far from his intention, but as might be supposed, he spoke feelingly on the subject as he really should not know if it passed how to interpret it, and regarding it as a mischievous measure, he condemned it most strongly. The Hoo. Attor vey General in replying said that in bringing forward this bill he had the Union of the Colonies, which could not be looked upon as very distant, in view, and it was not desirable that three different laws should be framed within a short space of time for the colonies. This important organ, so liable to disorder, can always be regulated by Holloway's Ointment and Pills. The former, rubbed on the right side, over the region of the liver, upon which it exercises the most salutary influence, without harassing the stomach or the bowels—a matter frequently of vital importance—confers on this remedy an advantage over every other form of medicine in the pharmacoponis, when assisted by the Pills, every disease is speedily subjected and effectually banished.

Holloway's Pills and Ointment.—Influenta, Colds.—In diseases of the throat and chest, so privalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whateverthe condition of the patient, Holloway's medicines will restore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consumates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on

HOLOWAY'S OINTENT.—Wounds, Scalds, Burns, and Irritating Sores.—The peculiarly mild, soothing, anti-inflammatory power exerted by this Ointment strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no angry aspect, and nover long tortues the little sufferer, whose very cry excites each bystander's compassion and pierces the parents heart. Every nurse should consider this invaluable Ointment an essential to a well appointed nursery. The Ointment is applicable to any orro, whatever its character. It conducts to health as sure as the compass points to the north.

Holloway's Ointment and Pills—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad for . Wiless proper means of cure be resorted to. In Holloway's uniritalled Ciment and Pills' the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the steady application of this noble lointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

plying this Ointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the surferer has been saved a painful death. In excortations, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, sie especially beneficial in relaxing and removing strictures, whatever their situation or duration. plying this Ointment after fomentation with war

Holloway's Pills—No family should be without those pills.—Their long-tried officacy in removing indigestion, stimulating the bowels, and purifying the blood, have secured them imperishable praise throughout the globe. Whatever the disease, a few doses will relieve the more urgent symptoms and thereafter completely control all disordered action, rouse the torpid liver, empty the engrged spiren, clense the obstructed kidneys, assimilate the food, improve the blood, and thereby confer on the brain and every function healthful vigour, natural activity, and wholesome regularity. In cases of indigestion, dinness of sight, headache, mental and physical lassitude, these restorative Pills act as a charm. They expel rheumatism and gout, while they infullibly correct female complaints in young and old, delicate and robust.

HOLLOWAY'S OINTMENT AND PILLS—Aente Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ense pain, reduce the swelling, restore the fee circulation, and expel the disease. In these own plaints, inueed, Holloway's Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves, vessels, and guiders, it will arcs disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happlest effect in assisting the Ointment.

powerful remedies needs nothing more. Indigestion, general dibility, liver compliaint, eruptions, sores, wounds, ulcers, tumours, &c., are infailibly cured by their use. They purify the blood and give tone and vigour to the whole system. The Olatment, when well rubbed into the parts affected, enters the flesh just as sail enters meat, and if the Pills be taken as an auxiliary, one cure is speedy, thorough, and permanent. These medicaments are composed of rare balsams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are effectious.

HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fattlattack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting other any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed and greatly augments the purifying and salutary influence of the Pills.

HOLLOWAYS PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the parent of so many evils, and is to common, so universal a complaint, that it is a great blessing that such a ramedy say this invaluable medicine should have been discovered No one need long suffer from indigestion with these Pills at name.
